

DTSC-200

Switchgear Control for ATS Operation

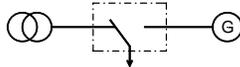

APPLICATIONS

The DTSC-200 provides a high degree of flexibility in a user friendly and intuitive design for use in multiple applications. The graphic display permits the user to interface easily with the controller.

FlexApp™ - This innovative feature provides the flexibility to easily configure the control for multiple applications. The DTSC-200 can easily be configured for use in:

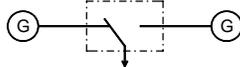

- **Utility-to-Generator Application**

The utility is supplying the load with a generator as the emergency source

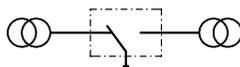

- **Generator-to-Generator App.**

A generator is supplying the load with a second generator as the emergency source

- **Utility-to-Utility Application**

The utility is supplying the load with a second utility as the emergency source

DynamicsLCD™ - The graphic LCD provides soft-keys with functions that adapt to the application and operation function.

A galvanically isolated CAN bus port is provided for configuration, communication, and visualization utilizing the CANopen protocol; additional discrete I/O may be added by utilizing the Woodward IKD 1 expansion cards (P/N 8440-141, request detailed information from our sales department).

An RS-485 Modbus RTU Slave full-duplex communication port is also provided for communication and visualization.

LogicsManager™ - The **LogicsManager** permits the user to create completely customized internal operations and control sequences.

Various measuring values, inputs and internal states or constant values may be logically combined using Boolean operators and programmable timers. This enables the user to create and/or modify monitoring and control functions.

DESCRIPTION

I/Os

- **FlexRange™** - True R.M.S. 3-phase voltage measuring inputs for source 1 and source 2:
 - Rated 120 Vac (max. 150 Vac) **and**
 - Rated 480 Vac (max. 600 Vac) **in 1 unit**
- True R.M.S. 3-phase load current/power
- Up to 12 configurable discrete inputs
- **LogicsManager™** - up to 9 programmable discrete outputs
- CANopen communication port
- RS-485 Modbus RTU Slave interface port

Monitoring (ANSI #)

- **Source monitoring**
 - Adjustable fail and restore limits
 - Overvoltage / undervoltage (59/27)
 - Overfrequency / underfrequency (81O/U)
 - Voltage asymmetry (47)
 - Field rotation
- **Load monitoring**
 - Overload (32)
 - Overcurrent (50/51)
- **Switch monitoring**
 - Switch position plausibility feedback
 - Transfer failure
- Synch check (inphase monitoring) (25)
- Battery overvoltage / undervoltage
- Parallel time monitoring

Features

- **FlexApp™** Technology (3 application modes)
- **DynamicsLCD™** - 128x64 pixel interactive graphic LC display with softkeys
- Elevator pre-signal
- Motor load disconnect signal
- Configurable trip levels/delays
- Configurable via PC and/or front panel
- 4 status LEDs for source availability and breaker state
- Multi-level password protection
- Multi-lingual capability (2 languages in 1 unit configurable: English, German, other languages on request)
- Event recorder (300 events, FIFO) with real time clock (battery backed; min. 6 years)
- IKD 1 DI/DO expansion board connectivity
- Modem connectivity with DPC cable (P/N 5417-557)
- Remote control via RS-485/CAN / discrete input signals
- Test & no load test mode
- Power seeking

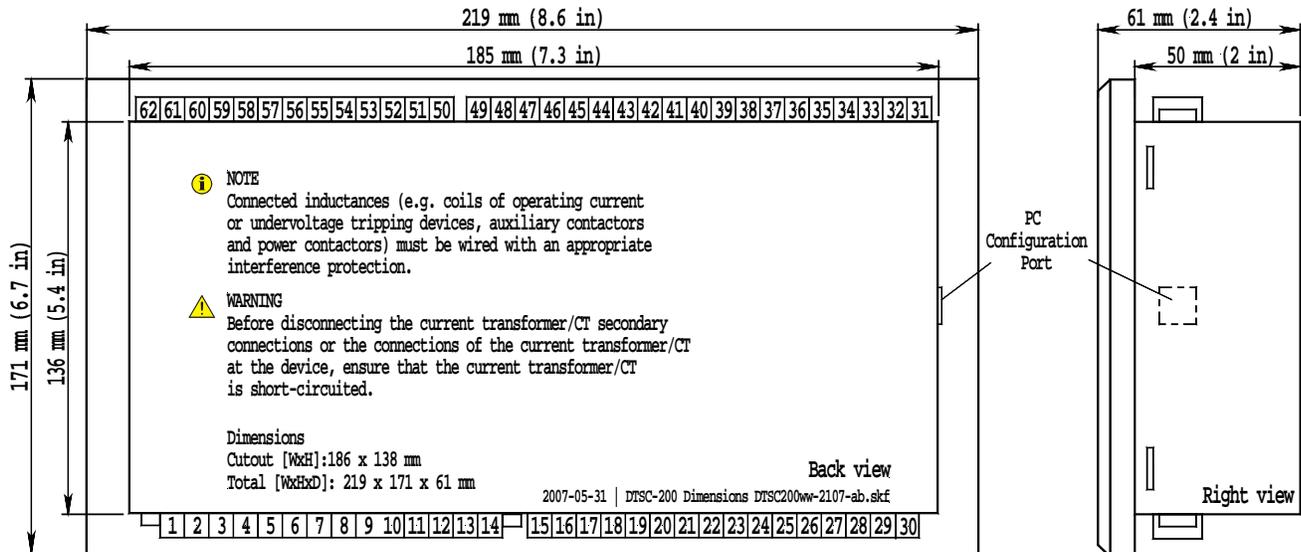

- **FlexApp™** Technology
- For use with breakers and transfer switches
- Transfer inhibit features
- Flexible and multifunctional **DynamicsLCD™**
- True R.M.S. voltage sensing with **FlexRange™**
- True R.M.S. current/power sensing
- Freely configurable discrete inputs
- Fully adjustable timers
- Freely programmable discrete outputs with **LogicsManager™**
- PC and/or front panel configurable
- Status LEDs for source availability and breaker state
- CANopen communication
- Modbus RTU Slave communication
- 6.5 to 40.0 Vdc power supply
- Flush panel mounting
- CE marked
- UL/cUL Listed

SPECIFICATIONS

Power supply 12/24 Vdc (6.5 to 40.0 Vdc; not buffered)
 Inrush current max. 50 A peak, 1 ms
 Input capacitance 2000 μ F
 Intrinsic consumption max. 8 W
 in power save mode (backlight, relays off) 3 W
 Ambient temperature (operation) -20 to 60 °C / -4 to 140 °F
 Ambient temperature (storage) -30 to 80 °C / -22 to 176 °F
 Max. operating altitude 2000 m (6,500 ft)
 Ambient humidity 95 %, non-condensing
Voltage (both ranges within one unit on different terminals, Δ/Δ)
 100 Vac [1] Rated (V_{rated}) 69/120 Vac
 Max. value (V_{max}) 86/150 Vac
 Rated ($V_{phase-ground}$) 150 Vac
 Rated surge volt. (V_{surge}) 2.5 kV
 and 400 Vac [4] Rated (V_{rated}) 277/480 Vac
 Max. value (V_{max}) 346/600 Vac
 Rated ($V_{phase-ground}$) 300 Vac
 Rated surge volt. (V_{surge}) 4.0 kV
 Accuracy Class 1
 Measurable alternator windings 3p-3w, 3p-4w, 1p-2w, 1p-3w
 Setting range primary 50 to 650,000 Vac
 Linear measuring range 1.25 $\times V_{rated}$
 Measuring frequency 50/60 Hz (40 to 70 Hz)
 Input resistance per path [1] 0.498 M Ω , [4] 2.0 M Ω
 Max. power consumption per path < 0.15 W
Current Rated (I_{rated}) [1] .1 A or [5] .15 A
 Linear measuring range $I_{source} = 3.0 \times I_{rated}$,
 Burden < 0.15 VA
 Rated short-time current (1 s) [1] 50 $\times I_{rated}$, [5] 10 $\times I_{rated}$

Discrete inputs isolated
 Input range 12/24 Vdc (8 to 40.0 Vdc)
 Input resistance approx. 20 k Ω
Discrete outputs Group A [R 1-4] isolated
 Contact material AgCdO
 Load (GP) 2.00 Aac@250 Vac / 2.00 Adc@24 Vdc
Discrete output Engine Start [R5] isolated
 Contact material AgNi 90/10
 Load (GP) 10.00 Aac@250 Vac
Discrete outputs Group B [R 6-9] isolated
 Contact material AgNi 90/10
 Load (GP) 10.00 Aac@250 Vac
RS-485 interface isolated 500 Vac
CAN bus interface isolated 500 Vac
Housing Flush Type easYpack
 Dimensions Flush 219 \times 171 \times 61 mm (8.6 \times 6.7 \times 2.4 in)
 Front cutout Flush 186 [+1.1] \times 138 [+1.0] mm
 Material glass fiber-reinforced plastic
 Connection screw/plug terminals AWG 14 / 2.5 mm²
 Front insulating surface
 Protection system with proper installation
 Front IP54 (with clamp fastening)
 Front IP65 (with screw fastening)
 Back IP20
 Weight approx. 800 g (1.75 lb)
Disturbance test (CE) tested acc. to applicable EN guidelines
Listings UL/cUL listed, Ordinary Locations, File No.: 231544
